Do You Have A Teenager?

Living with Teenagers is a free course for Central Bedfordshire mums, dads and carers of children aged 11 to 16 years. This interactive and informal programme is delivered online via Zoom. It is run over 8 weeks by trained parent group facilitators who have first-hand experience of the joys and challenges of being a parent of a teenager.

On the course, you will explore:

- What it is like to be a teenager today
- Practical communication skills to build up confidence
- How to reduce family conflict
- Support teenagers to make informed decisions
- How to better understand your teenager's feelings
- What are the secrets of spending shared time with teenagers.

Supporting and Progressing Families (SPF)

Supporting & Progressing Families is a 4-week parenting programme aimed at parents and carers of children aged 9 years and above.

SPF is based on the philosophy of non-violent resistance (NVR), which focuses on strengthening family relationships and reducing conflict through calm, consistent responses. The programme offers parents and carers the chance to explore a range of practical tools and techniques to support more positive interactions with their child.

Throughout the sessions, parents and carers will explore parental self-care, develop their presence with their child or young person, and learn strategies for de-escalation. The programme provides a safe, supportive and non-judgemental space to reflect on challenges, identify support, and build stronger, more connected relationships.

The programme is delivered by trained facilitators and is free to attend for parents and carers within Central Bedfordshire. Sessions are held online via Microsoft Teams.

Please see the dates and how to book below. The programme consists of 4 sessions in total held at the same time and date each week.

Booking will close two weeks prior to the start date. You will receive an email approximately 24 hours before the start with links on how to join the online meeting.
