

School Closure Activity Sheet- Key Stage One

Academic

Write your own story about our school closure. What could happen next?

Write your own addition, subtraction, multiplication & division number problems. Eg, I eat 2 apples & my friend eat 5 times as many. How many apples have we eaten?

Write an information leaflet about a favourite topic of your choice. Eg, dinosaurs, minibeasts.

Creative

Make a model of an animal from only recyclable materials.

Make an Easter bonnet or an Easter decoration using resources in your house.

Create and draw your own make believe animal. What would it look like?

Technological

What technology do you have in your house? Draw and label them.

Create an online shopping list at two different shops. Compare which is the most expensive and which is the cheapest.

Research some interesting facts about your topic (Intrepid Explorers or Endangered and Extinct).

Active

Do a Joe Wicks Hiit workout from youtube. Eg, <https://www.youtube.com/watch?>

Design and compare both healthy and unhealthy meals. Which would you like to eat and why?

How many times can you hop on one leg? Can anyone in your family do more? Create a bar chart of the results.

This sheet is designed to support your learning at home whilst the school is closed. Please record your work in your homework book and we will look forward to seeing what you have learned once the school has reopened.

Please see the other side of the sheet for some useful website and resources you may want to access alongside this sheet.

Bonus Box! Can you create and complete your own learning challenge? Write what it is in the box below.
