

Name: _____ Date: _____

Rounding race

Round decimals with one decimal place to the nearest whole number

You will need:
• 2 x 0–9 dice

Play this game with a partner.

Take turns to:

- roll both dice and make a number to one decimal place.
- round your decimal to the nearest whole number, this is your score for that roll.

Add your scores as you go along – a running total.

Rules:

The digits 4 and 8 are unlucky numbers on the dice:

- if you roll either a 4 or an 8 you miss your turn
- if you roll a 4 and an 8 all your previous scores go back to 0!

The winner is the player with the larger score after ten goes each.
