## Personal Development

**Personal Development intent-** this is everything we want for our Beecroft children so the same as our overarching vision statement.

Beecroft Academy aims to provide a nurturing and value driven environment for all children, in order for every aspect of their potential to be recognised and fulfilled. Our desire is for children, families and staff to be part of a school for which they feel pride and excitement – one which cares for each member much like a family.

Through their time here at Beecroft Academy, we endeavour to ensure that all children will learn:

- a set of moral and spiritual values
- a core set of skills, such as reading, writing, mathematics, physical, scientific and creative
- a hunger to better themselves and persevere
- a high sense of self-esteem and an understanding of their own value as individuals
- tolerance and respect for all regardless of gender, religion or ethnicity
- to be confident and successful learners.
